

# MAX

DESIGNER  
CHRISTOPH JENNI

YEAR  
2018

A sort of mix and match attitude takes place in the association of components, materials and products themselves. It is an open and adaptive program driven by the search of comfort, versatility and sustainability. We look at our collection in relation to the multitude of contexts and possible combinations hidden behind needs and projects. The collection features RE MAX, an innovative material made from 40% recycled wood.
